

**2018 Tennessee
Extension Interns**

WELCOME

Welcome to the 2018 Tennessee Extension Interns Presentation Day. We are pleased that you have joined us to meet the 21 talented interns as they complete their work in counties across the state or departments on campus. They have worked on special projects, taught classes, interacted with decision makers, developed educational materials and served as valuable members of an Extension team. Their audience has included farmers, homemakers, community partners, FCE members, TNCEP and EFNEP families, extended care centers, and 4-H campers. You are sure to be impressed by the work they have done and by their skills and abilities. Take time to visit with them, discuss their work, perhaps give some advice and encourage them as they continue their career decision journey.
